

**The ABC of the Year of Mercy**

**A**=ask for God's mercy

**B**=be merciful

**C**=communicate God's mercy to others

We all know that God is merciful and forgiving. So, when a person experiences the mercy and forgiveness of God s/he must be ready and willing to forgive others. Our forgiveness is the concrete expression of our experience of God who is merciful and forgiving.

Jesus' forgiveness should be the standard of our forgiving. He expects of us to forgive others without any limit. For instance, the parable of the unmerciful servant (Mt 18:23-35) tells us that we must forgive those who have offended us, because we have been greatly forgiven by God. God has forgiven us countless times, and this

experience of his forgiving mercy should impel us to forgive those who have injured us. If we do not do this, it means that we have not yet experienced God's forgiveness in our lives.

The root cause of our difficulty in forgiving other people is our failure to appreciate how completely and unconditionally God has forgiven us. Had the unforgiving servant understood how much the Master had done for him he would most certainly have forgiven his fellow servant his small debt. We are able to forgive others insofar as we know of the extent of God's forgiveness.

During this Year of Mercy let us employ the ABC of Mercy. Let it be our constant and concrete agenda to forgive everyone unconditionally. But if we often

recall the wrongs done to us by others and speak about it frequently, it is a clear sign that we have not yet forgiven those persons. May the Lord give us strength to forgive others as he has forgiven us! +Lumen, CSC

Editorial

About a week ago the elections to the village councils in the Autonomous District Council Areas were held in Tripura. Each time an election comes round, one cannot but admire the fervor with which the people look forward to it, prepare for it, and go through it. The tiny State of Tripura has the peculiar distinction of being the State that always records the highest voter turnout whenever an election happens in this large country of ours. It is not far behind when it comes to attendance in party *michils*, (rallies) either.

Aware of the inordinate party sense they are 'blessed' with, the Tripuri can even talk about it in a lighter vein, "the *Tiprasa* is first and foremost a party person, then, member of a tribe, and then, time permitting, member of a religion," they joke. Jokes apart, there is something in the way loyalty to Party

easily relegates all other considerations - ethnic, religious, even familial - into background. Sometimes Party fervor spills over into families and gives rise to conflicts, feuds and hatred among one's own kith and kin. The way one flag or another is able to hold absolute sway over a mass of people offers, no doubt, the social analyst, a wonderful case for study and research.

Although it would surely be simplistic and unwise to draw conclusions regarding the curious phenomenon mentioned above, one can hazard a guess that it has something to do with the way the community sees its past and also its future. Perhaps it just indicates an unwillingness to be indifferent to a reality that has substantially changed their collective lot in decades past. And the glimmer of hope, they believe, it still holds for their future.

Where do our 20 parishes, and an even bigger number of educational

institutions come in? Do we dare even to attempt a comparison with 'their' (*read Party*) programs and 'our' programs? What is the extent of our people's loyalty and belongingness to the Party and to the Church? Tough and discomforting questions, perhaps; but challenging ones too! They dare us to prove that what we stick out our necks for is not mere cosmetic add-ons, imported from elsewhere, optional and ornamental at best. They goad us on to demonstrate that what we offer is more than merely a soothing balm for anguished lives, but the very stuff that can infuse those agonies with hope, comfort and 'life' in a sense quite alien to political parties. **J. Pulinthanath, SDB**

## Diocese launches Catechesis on 'Sacrament of Reconciliation'.

The Diocese of Agartala has initiated steps to catechize the faithful on the Sacrament of Reconciliation as part of its Year of Mercy programmes. At a moment when, in the words of Pope Francis, young people all over the world "are rediscovering a path back to the Lord, living a moment of intense prayer and finding meaning in their lives" (*Misericordiae Vultus*), the Commission is making all efforts to "place the Sacrament of Reconciliation at the centre once more in such a way that it will enable people to touch the grandeur of God's mercy with their own hands" (*MV*).

As a first step an animation programme (TOT) was organized on 13<sup>th</sup> February at Don Bosco Parish, Nandannagar, to understand more fully the meaning of this great sacrament. 32 leaders from 8 parishes had a beautiful experience. Fr. Joseph Pulinthanath SDB animated the lively session bringing to focus the need and the importance of this healing Sacrament. With the help of a beautiful power point presentation in Kokborok, the many doubts about the sacrament and requirements for it were dealt with at depth. The Holy Eucharistic celebration at the end, presided over by Fr. Sunny was well participated. We are confident that this programme will help to build up awareness in the Diocese of the need for this great Sacrament and help to make them more fruitfully.

### A new mondoli at Khasi Thai Para

24<sup>th</sup> of January was a joyful day for the parishioners of Gachirampara and to the Diocese of Agartala as 62 new members of Khasi Thai Para, the new mission station of Gachirampara received the Sacraments of Initiation from our dear Bishop Lumen. The people from the village who belong to the Reang community which is located in a remote area in the mountains are simple and loving. Their interest in the Catholic Church came through the efforts of the laity of our Parish. Though the area is remote and the communications are bad (only a mud road in the dry season) our Bishop was ready to brave the odds and was happily present in the village to inaugurate a new *mondoli* and dispense the Sacraments. I sincerely thank him and the parishioners and the Catechist for their accompaniment with me. After a dusty drive and walk we reached the village and were warmly welcomed with flowers and singing and dancing. After the Mass there was a short felicitation program, mainly Hojagiri dance and speech, after which we all shared in the simple 'community meal' prepared for all.

### Holy Spirit School, Belonia World Cleanliness Day observed

"Cleanliness is next to Godliness" goes the proverb. All religions insist on cleanliness

before worship. This is because cleanliness is the first important thing in being near to god. By cleanliness we

mean the habit of keeping physically and mentally clean. Cleanliness of body is necessary for physical health. Dirt and disease go together. Disease germs breed and thrive in dirt; and the epidemic diseases which sweep over a country and carry off thousands, are generally the results of the dirty habits and surroundings of the people. To keep our house and neighborhood clean is our utmost obligation as it the only remedy available for national health and hygiene.

The students of Holy Spirit School used this opportunity of observing World Cleanliness Day on 30<sup>th</sup> of January in its surrounding. It was the students' idea to have the Awareness Rally throughout our village and to give the message of cleanliness to the people who are living around us. With the assistance of the Teachers an Awareness Rally was taken from the School to main road. The students used various slogans on cleanliness and proved

that cleanliness is next to godliness! *Sr. Preethi, SSps*
